

About The Institution of Environmental Sciences

The Institution of Environmental Sciences is a charitable organisation which promotes and raises public awareness of environmental science by supporting professional scientists and academics working in this crucial arena. As a seminal environmental sciences organisation, founded in 1971, the Institution is consulted by the Government and other interested parties on environmental issues. The Institution has strong ties with Higher Education and promotes and supports environmental science and sustainable development in universities and colleges both nationally and internationally. The Institution offers continuing professional development, supporting professionals as well as awarding membership which recognises an individual's accomplishments.

Membership of the Institution offers stepping stones on a career path - from student to Chartered status, attracting professionals of high standing with significant specialist and interdisciplinary experience.

Membership Grades

Fellow (FIEEnvSc)

Fellowship is for Members who have achieved distinction in the environmental sciences profession. Fellowship would normally require a further ten years experience beyond that required to become a Member. Application can be made subsequent to joining the Institution. No one will be admitted directly as a Fellow.

Member (MIEEnvSc)

This grade is for those who have achieved the professional experience comparable with chartered status in other professions. Normally a Member would have cumulated at least four years of professional work, either in, or related to, environmental science.

Associate (AMIEEnvSc)

For those holders of relevant and acceptable degrees or equivalent qualifying experience. Often this covers those starting out in the environmental sciences sector.

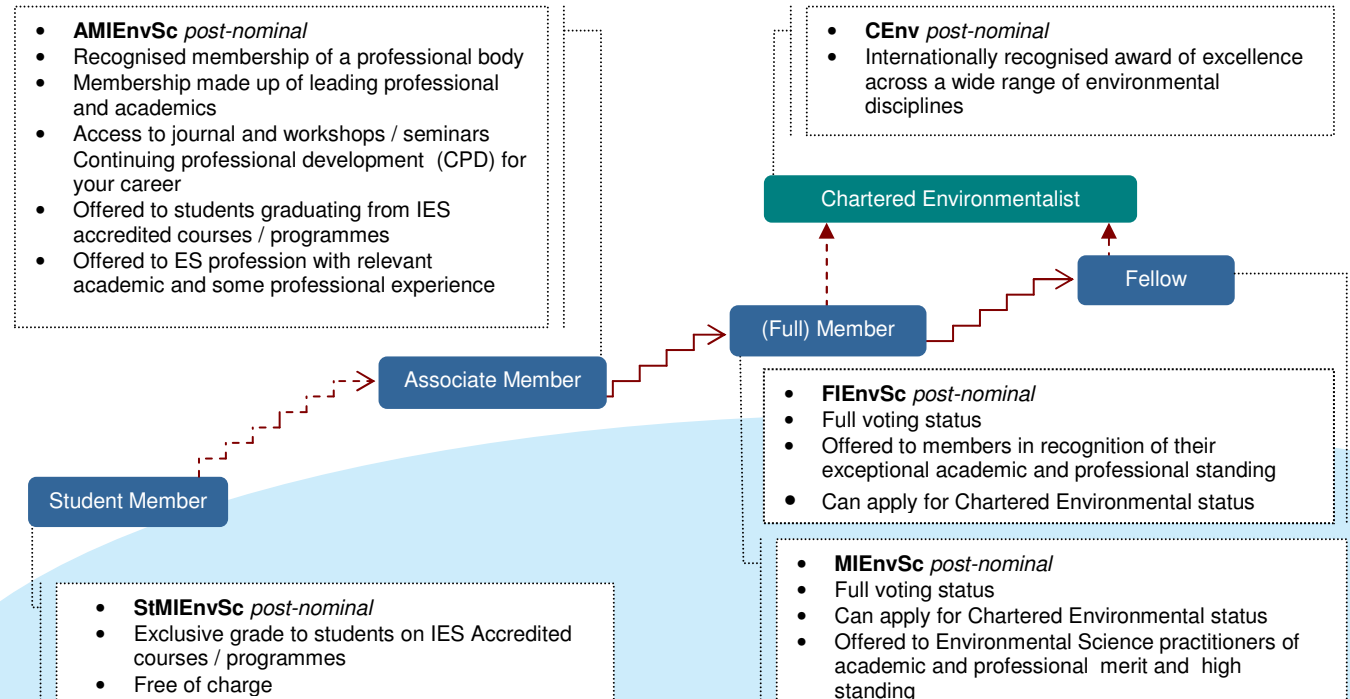

The application forms for membership can be found on our website (www.ies-uk.org.uk).

Benefits of Professional Membership

- The experience of being a member of a long established and highly reputable environmental science professional body
- Entry to an environmental career path which could take you to Chartered Status
- Support for CPD record keeping, aiding your career development
- Exclusive access to the Members area on our website, with news about jobs and events, in addition to information on our careers website www.environmentcareers.org.uk
- Access to the Members Forum, to network with other environmental science professionals
- Access to the latest edition of our journal "Environmental Scientist" with opportunities to publish articles about news, current issues.
- Access to our new e-newsletter "EnviroSci News"
- Recognition of achievements in your professional life
- Opportunity to stand for Council, having your say in the way the IES operates or its future directions
- Full Members given the opportunity to apply for Chartered Environmentalist status.
